

# Romania

When my friend told me, that we can go to Romania with the Comenius Programme, I was very happy. I took part in a similar program in the primary school, and I really enjoyed it. This time we had to write a cookbook for the application, which included traditional Hungarian recipes. We had to cook these dishes too, but it wasn't a problem, because I love cooking and baking. When I found out that I can go to Romania, I was very happy and excited.

We travelled to Turda on 28<sup>th</sup> September. That was a long tour, but I expected an even longer travelling. We arrived at Turda at about 5 o'clock. 10 minutes later my host family was there to bring me home. They were very kind and sympathetic. In the evening I had dinner at my host family. They cooked me some traditional Transylvanian foods. It was really delicious. After dinner we just had a chat, and we got to know each other. Bogi's (my host's parents) told me a lot of stories about the Hungarian, and about the Transylvanian history. On Sunday we went to Cluj-Napoca. A tourist guide led us around in that beautiful city, and told us many interesting stories. We strolled in the historical city centre, then we had some free time in the Iulius Mall. We could have lunch, but we also had time for shopping. Then we could choose different programmes. I chose the Central Park. That's a wonderful park in the city centre. In the middle of the park there is a huge and beautiful fountain. There is a lake in the park, where we could rode paddle boat. The last programme was the Citadel. At the Citadel you could see a beautiful view. In the evening we had free time. Me, my host and some other people went to the Caribic to play bowling. That was my first time and I think I love this game. Next day the principal of the school greeted us in the old Reformed church nearby the school. Then we visited the mayor's office, where the mayor greeted us, and every nationalities presented their own cookbook. After lunch we visited the Salt Mine in Turda. That was very interesting, and very nice. We could raw in the mine lake. I enjoyed that very much. When we arrived at the school we cooked real Transylvanian
