Thanks to the project, I had the chance to participate at a transnational meeting, so I could put in practice and improve my English. I also had the chance to meet some wonderful people, and for the first time, to have fun while learning.

THE BEST EXPERIENCE OF MY LIFE!!!

I really enjoyed the project. I am happy that I could participate in this project. Thank you for everything. :)

Personally, I see cultural projects, such as: Comenius and Erasmus, as a great opportunity to learn new things and to experience another culture's life. For me, this experience was educational, interesting and fun at the same time. I would defenitely try this again.

thank you for everything :)

I really liked the Comenius Project and I'd like to participate in the new projects of Erasmus.

In my opinion this projects aren't only about learning cooking, singing, making presentations in prezi or whatever, but also about meeting new people, visiting other places which we might not have the opportunity to visit in the future. I think that a big deal in this project has understanding that the place where we live is not the center of the world and other countries are really nice too and may offer us. And one of the most important things I realized thanks to the project is, that not everybody has such a comfortable lifestyle as we do in Czech Republic. Thank you Comenius!
